PROJECTS

Panimalar Engineering College Alumni Website, Project

Contributed to the team effort in designing and implementing the website's frontend with HTML, CSS, and JavaScript. Focused on creating responsive features for events, directories, and forums, enhancing alumni engagement and community interaction

Bus Ticket Generation Website, Mini Project

Developed a streamlined web application for bus ticket bookings, featuring an intuitive interface, secure payment processing, and real-time scheduling updates. Utilized technologies like HTML, CSS, JavaScript, and Python Flask to enhance user experience and operational efficiency. The project automated ticket generation and improved service value through immediate booking confirmations and reduced manual errors.

Accident Prevention System, Paper Publishment

I presented and co-authored a paper on an accident prevention system at the IEEE Conference , showcasing its innovation and potential in automotive safety. Leveraging sensors and GPS, the system aims to mitigate accident risks, with our findings published in IEEE Journal . This work highlights my contribution to safety technology and research engagement within the professional community

EDUCATION

Alphonsa Matriculation Higher Secondary School,

From 1st to 10th

ARP Camp Rd, Pattakasalian Vilai, Alphonsa Nagar, Nagercoil, Tamil Nadu 629002.

Velammal International School,

11th and 12th

Velammal Knowledge Park, High Road, Panchetti, Kolkata High Road, Tamil Nadu 601204.

TECHNICAL SKILLS

Python

Django

HTML,CSS

SQL

PERCENTAGES

10th-95%

12th-91%

SOFT SKILLS

Problem-Solving

Teamwork

Adaptability

Resilience

CERTIFICATIONS

Image Processing in python — DLK

Did an internship in DLK that helped me understand the basics of image processing in python.

Artificial Intelligence for Real-World Application — TCSion

Did a certification in artificial intelligence that helped me learn the basics of AI using python

Advanced Python — FITA Academy

Did a certification in advanced python that helped me learn the basics and some advanced python
